SUMMARY

First-year B.Sc. IT undergraduate with hands-on experience building C-based applications and responsive web projects. Comfortable with C programming, file handling, HTML, CSS, Git, and GitHub. Interested in strengthening software development fundamentals through practical projects and continuous learning.

TECHNICAL SKILLS

Programming	C
Web	HTML, CSS, Responsive Web Design
Concepts	AI, Basic Data Structures, Problem Solving
Tools	Git, GitHub, VS Code
Operating System	Windows, Linux (Basic)

PROJECTS

KEY-VALUE STORAGE SYSTEM

Technologies: C, File Handling, Binary Search Tree

- Developed a lightweight storage application in C using binary file operations to save and retrieve records.
- Implemented a Binary Search Tree (BST) for in-memory key lookup and record indexing.
- Added file load and save functionality to persist application data across system restarts.
- Focused on clean code structure and dependency-free execution.

SAHYOG CARING BUREAU | CARETAKER SERVICE WEBSITE

Technologies: HTML, CSS, Node.js, Express.js, MySQL

- Developed a responsive website for a caretaker service and customer inquiry workflow.
- Built backend functionality using Node.js and Express to receive customer requirements.
- Integrated MySQL to store submitted customer requirement and inquiry data.
- Designed the workflow so the business team can review requests and contact customers directly.

CYBERSUMIT | EDUCATIONAL WEB PORTAL

Technologies: HTML, CSS, GitHub Pages

- Designed and developed a responsive multi-page website using CSS Grid and Flexbox.
- Optimized layout structure and navigation for smoother cross-device browsing.
- Published and maintained the project using GitHub Pages.

WORK EXPERIENCE

CUSTOMER CARE EXECUTIVE | Eureka Outsourcing Solutions (EOS Globe) | 4 Months

- Handled customer queries with clear communication and systematic problem-solving.
- Documented support requests and escalated complex issues to appropriate internal teams.
